

## Records of Immigrant Insects for the Year 1936

BY THE EDITOR

In this issue of the Proceedings, the following new immigrant insects are recorded. Those marked with an asterisk were observed for the first time at the date mentioned. The others have been previously collected, but herein named or recorded for the first time. For details of records, etc., refer in the text to the pages given.

	PAGE
* <i>Hydrellia williamsi</i> Cress. (Dipt.).....	359
